This week's 'Congratulations' go to...

Ash Class— Jack, we are so proud of all of the effort you put into your learning at home. You complete every Tapestry challenge and practise your new sounds each week. Your hard work is definitely paying off. Well done.

Elm Class—Georgia it has been an absolute pleasure to see your confidence grow recently. You always give 100% in everything you do and you are a delight to have in Elm class. Thank you and well done.

Oak Class—Darrah, you showed great enthusiasm during our Christingle workshop and answered lots of questions. Well done.

Holly Class—Noah for your focus and determination in maths this week. You have been excellent at learning the names of different 3D shapes. You always work hard and do not give up when it gets tricky, well done.

Hazel Class—Mason S. for amazing science work this week. You worked well as part of a team to find out which materials were absorbent. You tried hard to use scientific language to explain what happened. Well done

Willow Class—George, for your enthusiasm in Design and Technology this week. You made a fantastic slider and thought about the key features you needed to include. You could talk about the importance of using a guide bridge. It was lovely to see you had created a slider at home too.

Chesnut Class—Ryan, you're always so responsible and helpful, playing a key role in keeping our classroom running smoothly. You're amazing at remembering to do your job at the end of the day — I never have to remind you! Keep being brilliant.

Hawthorn Class—Harper W. you are enthusiastic in all that you do. You have worked hard in all of your lessons this term and your efforts have been noticed by other members of staff. You are a positive member of Hawthorn class and are always doing your bit to help around the classroom. This week you have really stood out in all of our singing sessions.

Sycamore Class—Kayla, you have been putting lots of effort into your learning. You are more focused on your independent tasks and your writing in particular is improving rapidly.
