

Rednal Hill Infant School and Nursery Class  
Irwin Avenue  
Rednal  
Birmingham  
B45 8QY

Headteacher: Miss A Pendleton

---

Dear Parents and Carers

**FOR THE ATTENTION OF NURSERY, RECEPTION AND YEAR 1**

We are sad to report we have had a confirmed case of Covid-19 within our school and Year Two children and associated staff have been asked to self-isolate at home for 14 days, in line with Government Guidance. A separate letter has been sent to Year Two families.

We are continuing to monitor the situation and are awaiting advice from Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child. Please be reassured although this is an anxious time, that for most people coronavirus (COVID-19) will be a mild illness.

The school remains open to Year One, Reception and Nursery children, and providing your child remains well they should continue to attend school as normal in line with government guidance.

We realise this information is worrying and that you may have questions you want to ask. You can contact school via email on [office@rednalhill-inf.bham.sch.uk](mailto:office@rednalhill-inf.bham.sch.uk) or by telephone on 0121 4532636.

Please read the following page for information around what to do if anyone in your family develops symptoms of Covid-19.

Finally, we would like to send our best wishes for a speedy recovery to the family involved.

Yours in partnership

A handwritten signature in black ink that reads 'Anne Pendleton'.

Anna Pendleton and the staff team at Rednal Hill Infant School

**What to do if your child develops symptoms of COVID 19**

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared.

All other household members who remain well must stay at home and not leave the house for 14 days.

The 14-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community.

If you are able can, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.

**Symptoms**

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- New continuous cough and/or
- High temperature
- A loss of, or change in, normal sense of taste or smell (anosmia)

**For most people, coronavirus (COVID-19) will be a mild illness.**

If your child or anyone in the household does develop symptoms, you can seek advice from NHS 111 at:

<https://www.nhs.uk/conditions/coronavirus-covid-19/symptoms/> or by phoning 111.

**How to stop COVID-19 spreading**

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19.

**Do**

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards
