Our annual batch of **Living Eggs** arrived in school on Monday and we already have **10 chicks!** Early Years children have been transfixed watching the eggs tremble and then crack until the tiny, wet chicks hatch. In no time at all they fluff up under their heat lamp and can be heard cheeping away happily with their brothers and sisters.

This experience provides so many opportunities for children to learn about nature and what animals need to develop healthily. It also gives the children endless opportunities to talk about what they can see and to learn new vocabulary as well as learning to demonstrate responsibility and respect.
