Forest School

Not all classrooms have walls. Forest School naturally supports children to become more aware of their physical selves. It also allows children to safely explore and test their own boundaries. They can face fears, develop skills, test ideas and make discoveries

We are proud of our Forest School area and have recently created more dens and places for children to explore. Ask your child what their favourite thing to do in Forest School sessions.

Sad news

Last Friday evening our Forest School area was vandalised and the basecamp benches were uprooted and resources damaged. Staff came in specially over the weekend to repair the damage so our children have been able to continue to use the site. Please could we ask the school community to be vigilant and report anything suspicious to the school office or Jason or Chris.
